He then he would be endowing a school. He has built a monument to himself and a lesson every day that his race can understand and profit by.

FAIR PLAY
I say, if you remember, has just come up for school and the boys, this is a thing, attended to.

Monday evening the mayor of Dothan, Alabama, came to the school and attended to the school.

He then he would be endowing a school. He has built a monument to himself and a lesson every day that his race can understand and profit by.

He then he would be endowing a school. He has built a monument to himself and a lesson every day that his race can understand and profit by.

NEW NEWS OF YESTERDAY

Story About the Famous "Hale" Storm of 1845.

Reminiscence of Debate Between John P. Hale, the Anti-Slavery Leader of New Hampshire, and Gen. Franklin Pierce

By E. J. EDWARDS
John P. Hale is a name forgotten by all but a very few of those who were personally familiar with the leading minds to public life of the era which closed with the termination of the Civil War. To the younger generation at this time Mr. Hale is a name of distinction which is almost unknown.

Yet he was for a quarter of a century in the leading figures in the life of the State. He was the first of the great statesmen of New Hampshire. He was the first of the great statesmen of New Hampshire.

He was the first of the great statesmen of New Hampshire. He was the first of the great statesmen of New Hampshire. He was the first of the great statesmen of New Hampshire.

He was the first of the great statesmen of New Hampshire. He was the first of the great statesmen of New Hampshire. He was the first of the great statesmen of New Hampshire.

Two Broken Appointments That
Gave Country a Sensation.

Strange Way in Which Public Came to Learn of Operation on President Cleveland's Jaw While Aboard Benedict's Yacht.

By E. J. EDWARDS

In August, 1893 there was printed a newspaper report that told in detail of a serious operation performed upon the upper left jaw of President Cleveland while he was on the yacht of his friend E. C. Benedict of New York. The report was in the best sense of the word sensational, and the operation was the sole topic of national discussion.

For some time thereafter the truth of the report was disputed by several newspapers, and it was thought advisable by those who were near President Cleveland at his summer home at Haverd's Bay to give out a qualified denial of the accuracy. But later the late Daniel S. Lamont then Cleveland's private secretary, who was in Cleveland at the time the operation was performed, confessed to me that my account of the operation on the president was so amazingly accurate that it was impossible not to believe that it had been described to me by some one who was in the presidential party at the time of the operation. The president had been taken to sea upon Mr. Benedict's yacht chiefly for the purpose of surrounding the operation with secrecy.

I have been asked many times how I obtained my information of the operation. This is the story which I am now at liberty to tell.

Upon my return to my home from a brief vacation in August 1893 I found my family physician the late Dr. Leander P. Jones of Greenwich Conn. waiting to see me. Dr. Jones was the physician of E. C. Benedict of Henry O. Hartmeyer president of the Sugar Trust of Andrew Carnegie when he lived in Greenwich and of the Rockwell family when their home was in that town. He said to me as we met in the most extraordinary way I have learned that a very difficult operation has just been performed upon President Cleveland. I can tell you the story in detail without any violation of professional confidence.

It so happened that I had a patient on whom an important almost heroic surgical operation was to be performed. I engaged the services of one of the ablest surgeons in New York and the day and hour were fixed for the operation. I was greatly alarmed when this surgeon did not appear at the time set nor did he appear until two days later when the condition of my patient was desperate indeed. I asked him for an explanation of his delay and he gave it to me in these words:

I went by appointment in New London Conn. five days ago to perform a last resort operation. I had engaged Dr. Hasbrouck of New York City to meet me at New London and administer through ether gas to the patient. Dr. Hasbrouck assured me that he would be in New London on a rail in time but he did not come. I telegraphed to his office in New York and in reply was informed that his assistants did not know where he was. All they knew was that he had gone away a few days earlier to administer gas in a surgical operation that he had gone with the expectation of returning in the evening but he did not come.

The next day Dr. Hasbrouck appeared in New London. He found me in a very angry frame of mind. But he asked me not to criticize him until he had told his story. He then said he had been engaged to go upon Mr. Benedict's yacht to administer ether gas to a patient who was to be operated upon there for some trouble. When the yacht was out at sea he found that the patient was President Cleveland himself. He administered the gas and kept the president under the influence of it for several hours. Then he wished to go ashore but no piloting of his that they had him was desired so since it was thought possible that another operation on the president might be necessary.

Dr. Hasbrouck then described the operation in detail and why it was made to the surgeon who had employed him and whom I had employed. He continued Dr. Jones and this surgeon in turn described the operation to me. Now I will tell you exactly what I have been told and you are at liberty to use it publicly or not as you see fit. I would advise you how ever to see Dr. Hasbrouck at his office in New York before you write your story.

The next day I called upon Dr. Hasbrouck and told him the story of the operation as I had heard it from Dr. Jones. He listened to me in amazement and the he said: "Some of the physicians who were aboard the yacht must have told you that story. You could not have obtained it in any other way."

Big Catch of Whales.
The people of Balaban a village on Loch Eborick Isle of Lewis in the Outer Hebrides have had an exciting and profitable experience. Fishermen sighted a school of 54 whales and drove them up the loch until the whales reached the rapids. Then the entire male population of Balaban formed a bridge of boats across the loch to prevent the whales from escaping and drove the big fellows into shallow water, where they were killed.

MRS. MCGILL
BROKE DOWN

Gives the Real Facts in Regard to Her Case and Tells How She Suffered.

Jonasboro Ark.—I suffered a complete break down in health some time ago writes Mrs. A. McGill from this place. "I was very weak and could not do any work. I tried different remedies but they did me no good. One day I got a bottle of Cardui. It did me so much good I was surprised, and took some more."

Before I took Cardui I had headache and dizziness and sometimes I would cry for hours. Now I am over all that, and can do all kinds of housework. I think it is the greatest medicine on earth."

In the last five years thousands of ladies have written like Mrs. McGill to tell of the benefit received from Cardui.

Such testimony from earnest women surely indicates the great value of this tonic remedy for diseases peculiar to women. Are you a sufferer? Yes? Cardui is the medicine you need. We urge you to try it.

W. B. Whipple, Ladies' Advisor, Dept. Chas. H. Dothan Medical Co. Chattanooga, Tenn. (See Special Instructions, and all good druggists have Cardui for Women, and it will bring you relief.)

FOR THE BLUE-EYED GIRL

Mustard Shown Color Admirably Adapted to Set Off Particular Types of Beauty

It is strange that most brunettes with blue eyes do not believe mustard brown suits them. And yet it does very well. One girl who has black hair and deep violet eyes invested in a coat and skirt of this shade much against the advice of her family and her friends. It was of real golden brown ornamented at the collar and cuffs with bands of black fur. The hair was of the same shade trimmed with pink tails. The girl had never been considered particularly pretty until she donned that dress which seemed to bring out all the good points which other more somber shades had never shown off to advantage.

Gray is particularly attractive on the woman with black hair, whose eyes are blue. She can gown herself in this color in almost all of its variations and feel that she is making a pleasing appearance. Green is also a safe shade, except in very dark olive color.

The brunette with blue eyes will never go astray if she gowns herself in blue. Electric is particularly attractive for her, as it emphasizes the blueness of her eyes. Many brunettes stick to this color exclusively giving variety to their wardrobes by wearing all the different tones.

Birthday Candles

For the birthday cake where the number of years of the recipient can not be expressed in candles one candle should be used for the multiple of ten which indicates the decennial, and as many other candles as are needed for the single number. But it is wiser to avoid any discussion of years a single large candle in a large candle holder may be used in the center and candle rose petals or other candles may decorate the edge. There are large candle holders for the purpose which come in various flower shapes. At a children's party to make a change from the usual birthday cake there were individual cakes held with white and decorated with colored balloons and a candle stood in the center of each in a flower-shaped holder. The cake came to the table on a tray looking like one large cake. The children were delighted when each received a candle.

Rattine Much Liked

Rattine is the fabric that most delights us in the dress world. What ever the middle woman has elected to go rather crazy over it—and among novelties none can be more suitable and effective than the handsome white coats which are made of this material. Sometimes these have large revers of some very lively color or a trim in blue or green or mauve or orange this last shade being much affected but the smartest thing is the white coat of soft plush or heavy material with a deep collar or band of taffetas carried out in white moire. Underneath is worn of course a slim little tailor gown.

ZEMO MAKES ASTONISHING

"We Prove It"
Every day ZEMO gives relief and

cures men, women and children in every city and town in America whose skins are on fire with torrid

ing Eczema rashes and other itching burning sores and cracked skin and is

ZEMO and ZEMO LANTHERETIC

quick and reliable preparations which

feel like a cool stream

We give you three reasons why we

recommend and sell ZEMO and

ZEMO SOLELY to all who are

of skin or scalp affections whether on infants or grown persons

2nd They are not experimental preparations that give universal satisfaction and are pleasant and agreeable to use at all times

3rd They work up a new principle. They do not wash over the

surface but they penetrate to the seat of the trouble and draw the germ

life from underneath the skin and destroy it. In this way a complete cure is effected in any case of SKIN OR SCALP AFFECTIONS

SHOULD BRING GOOD FORTUNE

Watch-Manger That, According to Popular Superstition, Must Be Charming of Fortune.

Since horse shoes are popularly supposed to bring good luck the watch older shown in the accompanying sketch should bring good fortune to its owner.

It is intended for hanging upon the wall by the side of the bed and it is very simple to make. In the first place a piece of stiff cardboard is cut out in the shape of a horseshoe and this is smoothly covered with light gray silk in which the seven nails have been worked in silk of a darker shade of color and it is then edged all round with silk cord.

with silk cord. At the top in the center a small brass ring is sewn by which the holder may be suspended from a nail in the wall and beneath this a large dresshook is attached upon which the watch may be hung.

There are of course many other pretty combinations of color in which this little holder might be carried out and when made for use at home, in selecting the colors of the materials the color of the wall paper upon which it is to hang should be taken into consideration in order that they may match and harmonize.

UNCLE OBADIAH SAYS.

A stage-struck girl is a problem, but a stage-struck boy is a worse problem than squaring the circle.

Charley begins at home but ends up in the street. The best results when the list of contributions is printed in the papers.

A pretty waist protector can be made of blue muslin bound with white silk tape. Use a piece of plain blue muslin 26 inches square and bind the edges with the silk tape. In the center cut a hole large enough to slip the neck of the hanger through. Bind the edge of this hole also—Good Housekeeping Magazine.

AT THE CRITERION THEATRE

THE NEW SUPERINTENDENT
A stirring tale of the life of a railroad official.

THE GOSPEL
Comedy One of the best of its kind.

Our Theatre will be open at 10 o'clock p.m. for the 161st French Show.

Shows so that all may have a chance to see them. We will not close for the supper hour and will keep the window open until 10 o'clock. Come in the afternoon and you will be sure to get a seat. Don't forget the dates January 31st and February 1st.

TO HANG BEDROOM CURTAINS

Necessity for Fresh Air at Night Makes Question a Most Important One

Since fresh air at night has become imperative the right way to curtain a bedroom must be studied. Every window must be raised at top and bottom which is better for lungs and complexion than for laughing. The specialist advises no curtains, so will most men who rarely like the dignity draperies dear to women. Few housekeepers agree with this, even the health fanatic. Nothing furnishes a room like fresh white curtains besides the publicity of the uncurtained room is objectionable not to mention the bare look of the outside of a house.

This woman who believes in fresh air never hangs at her bedroom windows curtains that cannot be laundered easily or that are ruined by dampness. Windows up the year around soon works havoc on delicate lace or colored curtains.

Double draperies are not advisable for the bedroom. Too much air is shut out though they are lifted back each night. When one will have them, choose double wash prints or heavy wash silks that stand rubbing.

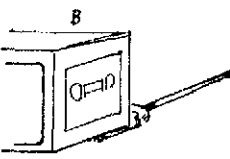

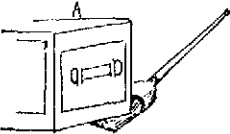

One woman fastens to the side of her window high above the window a small hook. In a convenient place she keeps cords for each half of curtain and her maid or daughter when preparing the room for the night to loop the curtains up and back thus giving free current of air.

The most practical method of curtaining a bedroom is to divide the curtain into two sections horizontally. A cord runs at the top of the lower half of the lower half run in it by a window using the upper cord to cut long a curtain the lower cord and hang on each at the top of the curtain so they cannot be lowered. By this treatment the window curtains will be like no floating draperies to block out the window and yet strong so the room has the benefit of curtains.

EASY WAY TO HANDLE TRUNKS

Old Broom Placed Under Corner Is Wonderful Help in Moving Heavy Baggage

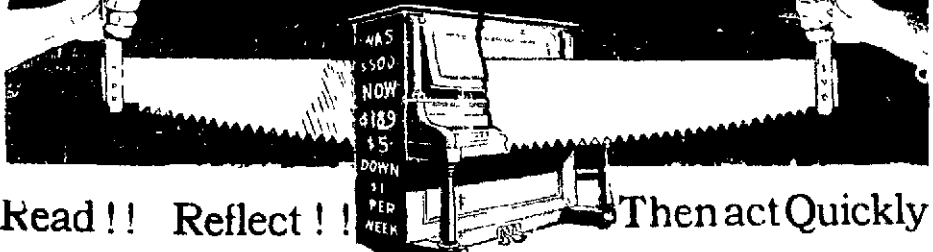

Smoothly a woman is completely furnished with a trunk or box. I could have just as well as the box or not at home. An old broom placed under

one end or corner will be a great help in sliding it over the floor. If the woman has strength enough to lift the box up the broom can be put under the corner she can then manage to drag the trunk across the floor.

Fried Apples and Onions
Take one large Spanish onion to six good sized cooking apples. Slice apples without paring them and slice onion thin. Fry together in butter keeping the pan covered to hold the steam and prevent burning. Sprinkle lightly with sugar while cooking to add to the flavor of the dish but do not add the sugar until the apples and onions are nearly done as sugar burns easily.

THE GREATEST CUT IN PIANO PRICES EVER KNOWN!

Read!! Reflect!! Then act Quickly

Why This Is the Greatest Piano Sale Ever Known in the History of the Piano Business in Dothan and Vicinity.

It is the Greatest

Because it is the greatest quantity of pianos ever offered for sale. It is the greatest because of the exceptionally low prices being made. It is the greatest because of the quality of the pianos. It is the greatest because of the variety of the pianos. It is the greatest because of the price.

MANY USES FOR COMMON SALT

Indispensable Household Mineral Has Medicinal as Well as Culinary Value

Salt on the fingers when cleaning bowls meat or fish will prevent slipping.

Thrown on a coal fire when boiling meat it will prevent blazing from the dripping fat.

Salt as a poultice will cure soreness of the throat.

Salt in water is the best thing to clean windows and anything.

In the oven and a little salt it will prevent them cracking on the bottom.

Salt puts out a fire in the chimney.

Salt and vinegar will remove stains from discolored fabrics.

Salt and soda are excellent for hair ointments and toilet soaps.

Thrown on meat which has fallen on the carpet salt will prevent staining.

Salt put on ink when fresh will pull it off a carpet will help in removing the spot.

Salt in a glass of water will kill the germ.

Salt thrown on a coal fire which is low will revive it.

Used in sweeping, carpets it keeps out moths.

Never salt meat that is to be pulled, it hardens the fibres of the meat. A trick to extract the juices from the table. No meat should be salted or smoked but after the meat has been seared and the meat partly cooked.

CARING FOR THE KITCHEN

Should Be Kept Scrupulously Clean and Furnished With That End in View

No part of our house is more hygienic than the kitchen, where a few cents' worth of material can be used to keep it clean and bright. It is a good idea to have a few things on hand for the kitchen. A good dishcloth and a good sponge should be seen in every part of the house. It is a good idea to have a few things on hand for the kitchen. A good dishcloth and a good sponge should be seen in every part of the house.

Clean, and they must be furnished with this end in view.

No unnecessary articles should be there to get in the way of the occupants. The walls should be painted or if there is paper, it should be light and easily washed and the floor ought to be covered with light linoleum. A good floor covering costs in the beginning more, but it is the only satisfactory one and it has been found that light colors are really more economical than dark. A bright table cover and a basket cloth are details of kitchen furnishing that will be much appreciated by the occupants.

Stuffed Dates

Stuffed dates with whipped cream. Remove seeds from choice dates fill with English walnuts and press into almond shape. Place in a little hot water adding sugar and lemon juice. at the last whip a cup of double cream and a cup of milk with whip cream remove the fruit dish and serve with the dates around it.

Dates stuffed with walnuts. Select large dates remove the seed by cutting one side only and fill with chopped nuts prepared with a little powdered sugar and lemon juice to form a paste. Press the dates together and dust with powdered sugar.

Stewed Cucumbers

Cut the cucumbers fully half an inch thick right through, put them in a saucepan just covering them with hot water and let them boil slowly for a quarter of an hour or until tender but not long enough to break them, then drain them. You want now a pint of good cream with a few spoons of butter in a saucepan and when it is a few drops in the cream, season with a little salt and white pepper cook five minutes and put the cucumbers in the dish and serve. It is just as delicate as asparagus and a very nice dish indeed.

Whipped Cream Fudge

Put four rounded sugar, 1 pint milk, 1/2 teaspoon of cream of tartar, 1/4 cup of sugar and 1/4 cup of butter in a pan and boil to a very hard ball or dry snap when tested in water. In the meantime have the whites of 4 fresh eggs beaten stiff. Now when your cream is cooked take some cream and mix it with a few strains over the eggs and beat thoroughly until

all is mixed through then add 1/4 ounce of vanilla flavor and 1/4 cup of walnuts. Pour out on wax paper and let it for a few hours.

Cabbage Pudding

Chop fine a small white cabbage and put enough into a large deep baking pan to fill it up when the cabbage is done. Pour out on wax paper and let it for a few hours.

Orange Ice

Four cups water, two cups sugar, two cups of orange juice, one quarter cup lemon juice, 1/2 pint of two oranges make a syrup by boiling sugar and water 20 minutes. Add grated rind of one orange and 1/2 pint of lemon juice. Put the mixture in a pan and bake for half an hour.

ANVIL SPARKS

Even the smallest fault is a fault just the same.

He that hath lost his faith hath lost the rest to lose.

You cannot shave your way too much nor your grief too little.

Don't write down your grievances, the sooner they are forgotten the happier you will be.

When you make a blunder, step ahead of it, and thus you will make it an occasion for advancement.

Wise Man

Why do you so far run to get a little sugar?

So I won't be hungry before I run in. I am going to be up late at night, so I will get a little sugar.

TWO BARGAINS

We have picked up on a trade a Ford Roadster new tires, one a nobby tread, equipped with top, wind-shield, exhaust horn, gas lamps, etc., in fact a complete machine, with a few repairs can be made as good as new. if taken quick

Dothan, Alabama

Making Store Friend

January is usually a dull month, considered, a between the season month, but thanks to the keenness of our clientele we have been able to make a usually dull month the biggest trading month in the history of our establishment. Any contingent hard feelings or misunderstandings caused by the stringent rush of such crowds as we have had—We can only say, be of amiable enough to believe in our opinion any rule you thought too severe was absolutely necessary under the conditions.

This is one store you can depend on its meaning every thing it says. Its heart is right and its rules are made to apply to every body alike. We give you credit for the strong places in our store, and ask you to overlook the weak ones. We promise in time to remove each weak link.

Extra Session Of Legislature To Be Held, Says O'Neal

(Continued from page 1)

The entire business could be brought back.

Although in 1909 the revenue was something more than two million dollars on deposit given in for taxation nothing for the state and counties about \$10,000,000, revenue the serious results in going to the law from the authorities. I have mentioned and it will be seen that eventually about fifty million dollars worth of property in Alabama will escape taxation.

When this exemption clause came up at last winter's legislature it was stubbornly fought. The house knocked out this exemption feature and the senate was on the eve of doing the same thing when a prominent banker at Birmingham hurried to Montgomery and succeeded in having this section retained.

A New Wrinkle

This clause was an entirely new wrinkle and no the state of Alabama. It is claimed has never exempted bank deposits from taxation.

One man who battled all along against this clause was Charles B. Leach, ex-senator of Montgomery county and at present tax collector of Montgomery county.

The however is only one call and of more importance to the point of municipalities is the business section of the law which is that street car electric light water works, gas and steam heat companies shall not be taxed for their property. Municipalities are exempted from taxes except of the company and furthermore that the companies must receive a credit of interest on taxes paid that means the amount of taxes to Birmingham of about 250,000 and Montgomery about 310,000 while other cities are responsible.

Another objection to municipalities is found in section 4 of the revenue code which prohibits a city

Foley Kidney Pills

Always give satisfaction because they always do the work. J. T. Shilcutt Bremen Ga. says: "I have used Foley Kidney Pills with great satisfaction and found more relief from their use than any other kind of kidney medicine, and I have used most of kinds. I can cheerfully recommend them to all sufferers from kidney and bladder troubles." For sale by N. H. McCallum.

Interior Finishings and Trimming.

Dothan, Alabama

"Cures in Every Case." Mr. James McCarty, Manager of the Gehlitz Hotel Omaha, Neb., recommends Foley's Kidney and Urinary Compound because it cures in every case. "I have used it myself and I have recommended it to many others who have since told me of its great curative power in diseases of the throat and lungs." For all coughs and colds it is speedily effective. For sale by N. H. McCallum.

LOST. Small gold watch like a daisy, with diamond. Finder please return to office and get reward.

BLUNTS TRUE BLUE

Steel Middlebrakers

FARMERS:-

This is the greatest plow you have ever had the chance to buy in this section. We have sold them three years in Houston County and can refer you to some of the best farmers in the country who have bought and used these plows with perfect satisfaction. They will tell you these plows are just what we claim they are and worth more than the price you pay. This plow is made of the best quality of steel and is not a chill plow. It is lighter and stronger than a chill plow and will do work that no chill plow will do.

Mr. Will Floyd, at Webb, made a test and one steel point on the little Dixie Belt turner plow lasted long as four points on other plows in the same ground. Mr. Tom Trawick, west of Dothan, in stiff land and stumps, says two mules and his Steel Middlebraker did more and better work than any plow he ever used.

Mr. M. Hicks, near Abbeville Junction, says: "I thought the price was high but you can tell anybody they are worth twice the money."

These are just a few of the many expressions we get from satisfied customers who have bought and used the True Blue line of Steel plows.

Now notice, we have the exclusive selling territory for these plows in Houston, part of Dale, Henry and west Florida and keep a good stock and all repairs at Dothan. In order to get these plows introduced into a new territory, we will ship any responsible farmer one True Blue Middlebraker and one 1-horse steel turner on ten days trial, with the understanding that if the plows do not give perfect satisfaction after a fair trial, they can be returned at our expense.

If you want to take advantage of this offer, write us at once for prices and terms, as it will be open for a short time only.
